Summary

Full Stack Developer with 1.5+ years shipping production web apps with React.js, Next.js, TypeScript, Node.js and MongoDB. Currently at Agumentik Software; previously promoted from intern to Software Engineer at ADRS Technology within 6 months. Experienced with microservices, Docker and cloud deployment on AWS, GCP and DigitalOcean. MCA, June 2026.

Experience

Agumentik Software Pvt. Ltd. Remote
Full Stack Developer (OJT) *Feb 2026 – Present*

- Built core modules of **MLOS**, an internal workforce-management platform spanning 7 role-based panels (∼170 screens) —client requests, hiring, verification, deployment, attendance and payroll —on a Next.js + NestJS (dual microservice) stack.
- Designed a permission-matrix **RBAC** system and a dynamic compliance-checklist engine; integrated AI-generated insights (**Groq**/OpenRouter, with fallback) across HR, Finance and Client dashboards, backed by 400+ unit tests.
- Resolved a production **Google OAuth** failure spanning the Next.js (Vercel) frontend and NestJS backend by correcting SSL and domain configuration, restoring sign-in for all users.

ADRS Technology Jabalpur, India
Software Engineer (promoted from Frontend Developer Intern) *May 2025 – Jan 2026*

- Promoted to full-time Software Engineer within 6 months of joining as an intern, based on delivery quality and ownership.
- Built and maintained production **React.js** UI components and a reusable component library, improving consistency and reuse across the codebase.

Projects

Classcrew | *Next.js 16, React 19, TypeScript, Tailwind CSS, MongoDB* **Link**

- Built a full stack e-learning and e-commerce platform solo, covering course catalog, enrollment, and an admin dashboard for courses, categories and training schedules.
- Implemented multi-method payments (card and bank transfer), automated PDF certificate generation, and calendar-based lecture scheduling.

Yourbeep | *Node.js, Express, TypeScript, MongoDB, React Native (Expo), Docker* **Link**

- Built backend **microservices** (API Gateway, Identity, Content, Commerce) for a gamified wellness platform with course delivery and progress-scored awareness games.
- Integrated Firebase Auth, FCM push notifications, **Stripe** (regional pricing, subscriptions, refunds) and Bunny.net video streaming.

Speedcopy | *Next.js, Node.js, MongoDB, Fabric.js, React Native, Railway* **Link**

- Built a print-on-demand platform covering 46 product types as a multi-service monorepo, with a Node.js gateway and Next.js storefront.
- Replaced four parallel hardcoded editors with one **Fabric.js** canvas editor for freeform template design with lockable/editable objects.

MLOS | *Next.js 16, NestJS, MongoDB Atlas, Expo React Native* **Link**

- Full staffing-lifecycle platform (hiring to payroll) across 7 role-based panels and a dual-microservice backend —see Agumentik entry above for details.
